

MassDEP/LSP ASSOCIATION CONTINUING EDUCATION SEMINAR
A Different Path through the Massachusetts Contingency Plan, 2007

May 9, 16, 23, 30 & June 13, 2007

DESCRIPTION: The "ideal" 21E site is a rarity: a single property, easily identified release, straightforward site assessment, Method 1 risk characterization, timely RAO and invoices paid in cash. "Real" sites, however, require patience, flexibility and nuance. The Massachusetts Contingency Plan was designed with "real" sites in mind, incorporating a variety of investigatory pathways, alternative timelines and outcomes. The Licensed Site Professional is their client's guide through this complexity. This training session will address some of these different paths and outcomes, including:

- Perchlorate and Emerging Contaminants
- Downgradient Property Status
- Special Projects Designation

INSTRUCTORS:

Paul Locke, MassDEP
Catherine Finneran, MassDEP

A course description, schedule and presenter biographies are available at:

<http://www.lspa.org/education/courses.php>

DATES: May 9, 16, 23, 30 and June 13, 2007 Seminars – \$200 for all attendees
